

Claim Amendments:

1. (currently amended): A production Christmas tree comprising a generally vertical production bore, a generally horizontal production passage having a first end connected to the production bore and a second end extending away from the production bore, and multiple production outlets extending from the second end of the production passage.

2. (original): A production Christmas tree as defined in claim 1, wherein each production outlet has a different diameter.

3. (original): A production Christmas tree as defined in claim 1, comprising two said production outlets.

4. (original): A production Christmas tree as defined in claim 3, wherein one of the outlets is of 7" (178 mm) diameter or smaller.

5. (original): A production Christmas tree as defined in claim 4, wherein the other outlet is of 5" (127 mm) diameter or smaller.

6. (original): A production Christmas tree as defined in claim 1, being a horizontal tree.

7. (original): A production Christmas tree as defined in claim 1, wherein each production outlet is provided with a respective valve.

8. (previously submitted): In combination with a horizontal Christmas tree comprising a generally vertical production bore, the improvement comprising multiple production outlets which are each connected to the production bore.

9. (previously submitted): The horizontal Christmas tree of claim 8, wherein each production outlet has a different diameter.

10. (previously submitted): The horizontal Christmas tree of claim 8, comprising two said production outlets.

11. (previously submitted): The horizontal Christmas tree of claim 10, wherein one of the outlets is of 7" (178 mm) diameter or smaller.

12. (previously submitted): The horizontal Christmas tree of claim 11, wherein the other outlet is of 5" (127 mm) diameter or smaller.

13. (previously submitted): The horizontal Christmas tree of claim 8, wherein each production outlet is provided with a respective valve.
